In the event that the web account becomes locked, or the password is forgotten, you must call (248) 969-2000, or toll free (800) 443-4290, in order to have the password reset. To complete the request, you will be asked a security question in order to verify you are authorized to access the account. Although this question is asked on the website, it will not unlock or correct a problem with the account, you must call for assistance.

Please tell us your desired Security Question:

What is the correct answer to the above Security Question?

Once the web store account has been setup we will send an email to the address listed above with a temporary password for access. You should log into the account and change the password to one of your choosing. Passwords can be any combination of letters (upper/lower case), numbers and special characters.
